Profile

JavaScript developer with 3+ experience, specialized in Vue.js framework. Proficient in creating responsive and engaging user interfaces through front-end development expertise. I have a particular interest in applying Vue.js best practices, including robust state management with Vuex or Pinia and transparent routing with Vue Router. Deep understanding of cutting-edge web technologies such as HTML5, CSS3 and JavaScript ES6+. I have worked with Agile methodologies and in collaborative environments to produce cutting-edge software solutions within diverse teams.

Education

PhD in management and information processing   **Sep 2023 - Feb 2026**
St. Petersburg State University, St. Petersburg, St. Petersburg

Master's degree in Informatics and Computer Science profile : Software systems development technology   **Sep 2021 - Aug 2023**
Novosibirsk State University (NSU), Novosibirsk
Software systems development technology

Bachelor's degree in Applied Computer Science, profile: computerisation of Business Processes   **Sep 2017 - Aug 2021**
Vladivostok State University of Economics and Service, Vladivostok
Computer Science

Employment

Frontend Developer   **Sep 2023 - Present**
webinnovations, Moscow
As part of of the frontend team, I'm working on different projects and my tasks are:
- create user-friendly web pages
- I maintain and improve different projects
- I optimise applications for maximum speed
- Get feedback and fix bugs
- Test and code review
- I deployed some of projects in production
- I designed new features for different projects

Hobbies

■ Reading

- Collaborate with back-end developers and web designers to improve usability
- Communication with back-end developers

I worked with different frameworks like VueJs, ReactJs and AngularJs

Lead frontend   Dec 2023 - Present
AfrikaLabs (Self-employment) Startup, Moscou
- Set up the architecture of our web applications
- I develop new features
- Conducted code reviews and provided technical guidance to junior developers
- I ensure the technical feasibility of UI/UX designs
- I worked on optimisation of the application for maximum speed and scalability
- Collaborate with other team members
- Share my experience with others developers
- Ensure high quality graphic standards and brand consistency

Frontend developer   Nov 2021 - Aug 2023
Speedma LLC, New York/USA
Remote work

I worked as a Lead frontend
Projects:
- Admin Dashboard (Create and management stores)
- Social marketplace for online selling
- Help Center

For all projects I used VueJs, Vuex, Composition and Option API, Tailwindcss, Vue Router, TypeScript, Sonar, Microservices, CI/CD, Docker, etc)

Trainee programmer   Dec 2021 - Jun 2021
Department of Social Informatisation and Information Security at the Ministry of Labour and Social Policy of Primorsky Krai, Vladivostok
ReactJs, Bootstrap, PHP, Laravel,ChartJs, Tableau Desktop, MySQL

During my internship, I developed a system for visualising the state of poverty indicators of Primorsky Krai residents with dynamic reflection of changes when adjusting arbitrary parameters. It is a web application using ReactJs and Laravel. My system was installed in the Ministry of Labour in Vladivostok for testing and analysing the possibility of further implementation.

Certificates

TypeScript   Jun 2023
TypeScript course at Result University

Certified in 1C   Jun 2020
Certified Training Centre of FSBEU VO VSUES, Vladivostok, Russia
